I strongly support Planning Application

DM2025/01591

I am a senior citizen and have lived in Sutton for the past 54 years. Over this time, I have seen the community grow, change, and develop, and I care deeply about its future.

This proposed location is very convenient for me. At my stage of life, accessibility is very important, and the site is easily reachable by both bus, including the S2 and S4 routes, as well as on foot. Having a community space within such close and manageable distance would make a meaningful difference to many residents, particularly elderly members of the community.

The planned community centre will include a dedicated space for ladies, providing a safe and welcoming environment where we can meet, socialise, and support one another. This will be especially valuable for elderly residents in Belmont and Sutton who may otherwise have limited opportunities to connect with others locally.

In all my years living here, we have never had a community facility of this kind so nearby. A centre like this would benefit people of all ages and would also support the future of our community by providing valuable services and opportunities for young people.

I have seen two generations grow up in this area, and I know how important it is for communities to have places that bring people together. A centre that is committed to serving everyone and

strengthening local connections would be a wonderful and positive addition to our neighbourhood.

For these reasons, I strongly support this application and respectfully ask the council to approve this proposal.

Kind regards,
