Address: 66 Great Tattenhams Epsom KT18 5SD

## Comment Details

Commenter Type:

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I have been attending St Johns Church hall this last year for Friday prayers, along with my children and female friends. We have found the Centre welcoming and caring. We have always car pooled and found the organizers very respectful to the local residents with regards to parking.

I welcome the application and believe it will be a much needed asset to the community of Sutton and nearby. We desperately require spaces that foster social connections, address loneliness, and provide opportunities for people of all ages to engage in activities that promote overall health. In particular, this centre will be a significant resource for the vulnerable in our society- the elderly, widowed individuals, as well as for carers of children and young people.

Whilst parking constraints exist in many areas across the UK including primary schools on a daily basis, I am confident that with thoughtful planning and cooperation, these issues can be mitigated. Many places of worship have successfully managed such challenges, and I trust that the Centre's leadership will take appropriate measures to ensure smooth integration into the local infrastructure.

I urge you to focus on the far-reaching benefits and immense value bringing this unused building into use will bring to the whole locality. It will provide a space for social interaction, mental well-being, social cohesion, qualities vital for a healthy and vibrant community.
