Commenter Type:

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing as an elderly retired resident of Overton Road to express my support for Planning Application DM2025/01591.

At this stage of my life, opportunities to engage with other people in the local area are extremely important. I believe the proposed centre will provide a welcoming space where residents like myself can meet others, participate in activities, and feel part of a wider community.

Social interaction plays a vital role in maintaining both mental and emotional wellbeing, particularly for older residents.

I value that the centre will be within walking distance from my home. Being able to walk to a local facility makes it accessible and practical for me to attend events and activities without needing to rely on transport.

A well-managed community hub offering structured programmes and social opportunities would be a positive addition to the area. I believe it will help reduce isolation and improve overall wellbeing for many residents, especially those who are retired.

For these reasons, I respectfully request that the Council approve the planning application.
