Comment Reasons:

Comment: Please support the building project. It is a place of worship and community gathering and activities which will hinder no one and cause no problems for the neighbourhood and surrounding communities. I see people are worried about traffic and noise but the building is out of everyone's way and the timings of worship and activities will not clash with peak traffic hours nor affect the houses around with noise and affect their peace as said before the building is more inward and away from general public and unlikely to be troublesome for immediate neighbours and the wider community in general
