Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing as a local resident and a non-Muslim member of the community to support this application.

The proposed extension is modest in scale and clearly designed to be in keeping with the surrounding area. It does not appear excessive or out of character and respects the existing streetscape. In my view, it represents proportionate development that balances community need with residential amenity.

I am also reassured that consideration has been given to operational management, particularly ensuring that programmes and events do not clash with school drop-off and pick-up times. This demonstrates a responsible and proactive approach to minimising traffic impact.

The wider community benefits are significant. The hall will be available for use by all communities, supporting inclusion and cohesion. The provision of a publicly accessible defibrillator is an additional tangible benefit that enhances safety for local residents.

Additionally, I am aware that the local Muslim community in Sutton/Belmont has been open to just share the humanity and kindness with non-Muslim member of the community such as myself and my family, and the Muslim community currently renting the community hall for their Friday prayers, that in itself speak a volume that the Christian community here in Belmont recognising no harm in the Muslim community having their own space to worship. I think this plan could also help the youth to have somewhere else safe to be at after school especially now we no longer have places like the Youth Clubs and the Throwley Yard Cinema.

For these reasons, I respectfully urge the London Borough of Sutton to approve planning application DM2025/01591 and when this is approved I am willing to be involved in bettering our community with everyone who believes in this community.
