Comment Reasons:

Comment: I am writing to express my support for Planning Application DM2025/01591.

I have recently moved to the Sutton/Belmont area and am in the early stages of settling into the neighbourhood. I come from an area with a very strong sense of community, where local facilities played an important role in bringing people together. Since moving here, it has become clear to me how valuable that kind of shared space can be, and I do feel that this is something the Sutton/Belmont area could benefit from strengthening.

Accessible and well-managed community spaces make a real difference in helping residents build connections, feel supported and develop a sense of belonging. The proposal to create a mixed-use Place of Worship (Class F1) and Community Hub (Class F2) would provide a much-needed focal point for people of different ages and backgrounds to come together in a structured and positive environment.

Having a dedicated space for women's activities is particularly meaningful to me. A safe, comfortable and inclusive setting where women can participate in educational programmes, wellbeing initiatives and social activities would greatly enhance opportunities for connection and support within walking distance of home.

The wider benefits of the proposal are also important. Educational programmes for children and youth engagement initiatives would help provide structure, mentorship and constructive outlets, contributing to a stronger and more cohesive neighbourhood overall.

In terms of the development itself, the proposed extensions appear proportionate and in keeping with the surrounding residential character. The provision of 12 on-site parking spaces, including 2 disabled bays, alongside cycle storage facilities, demonstrates that access and sustainability have been thoughtfully considered. The staggering of Friday prayer times to avoid conflict with school pick-up hours further shows awareness of and respect for the existing community.

Overall, I believe this proposal represents a positive opportunity to enhance community cohesion within the Sutton/Belmont area. It would provide a welcoming, inclusive and much-needed space that strengthens connections and supports residents at all stages of life.

I respectfully ask the Council to approve Planning Application DM2025/01591.
