Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: Many thanks for asking the public for our opinion on this upcoming planning and development of a religious site and community centre for Muslims of Sutton Cheam and Belmont. This project is already 20 years too late and now that it is launching soon I can't help but notice the vitriol and prejudicial comments from some of the other minority community residents surprisingly or rather unsurprisingly given their anti Muslim campaign. It is clear that there is a concerted effort by them to stifle this plan and needlessly objecting to its development initially making out to be a traffic and noise in the neighbourhood to Islamic extremism all of a sudden. We live here and have lived here for decades and peacefully mind you. So this fear mongering is unfounded. I recommend and support the building of this community hub and place of worship and I would recommend the council should take notice of the agenda of the campaigners against it.
