Comment Reasons:

Comment: I am pleased to express my support for Planning Application DM2025/01591, relating to the proposed change of use of the former ambulance station in Belmont (SM2) to a mosque and community centre (Use Classes F1 and F2).

I believe this project will bring a positive and lasting impact to the local area. The development will provide valuable youth support, educational programmes, wellbeing initiatives, and a safe and welcoming space for connection. It has the potential to foster harmony among residents from different cultures and faiths, strengthening community cohesion within Belmont.

The proposed community hub will also offer parents with young children an opportunity to participate in constructive and healthy activities in an affordable and accessible environment. Facilities such as this are vital in supporting families and promoting positive engagement within the neighbourhood.

I understand that some residents have expressed concerns regarding traffic. However, prayer times generally do not coincide with school drop-off and pick-up hours. I am confident that the mosque management can work collaboratively with local residents to agree practical and reasonable arrangements that address parking and traffic considerations in a way that is fair and workable for all parties.

Overall, I respectfully support this application and believe the proposed development will provide meaningful social, educational, and community benefits to the area.
