Comment Reasons:

Comment: I would like to express my full support for the new mosque in our local area.

As a busy mum with a large family, having a dedicated place of worship nearby would make a huge difference to us. Being able to pray locally, without having to travel far, would be a real blessing and would make it much easier to stay connected to our faith while managing daily family life.

This mosque would not only serve as a place of prayer, but also as a valuable community space for children and families. It would give my children opportunities for learning, positive activities, and a safe environment where they can grow, build friendships, and feel a sense of belonging. Facilities that support education, wellbeing, and community events would greatly benefit many families like ours.

We would truly appreciate the opportunity to have this mosque built in our area and would be very happy to see it become part of our community. I believe it will bring positive value to local families and contribute to a stronger, more connected neighbourhood.

Thank you for considering my support.
