Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I wish to formally object to the proposed change of use from an ambulance station to a place of worship on the grounds of traffic impact and public safety. This area already experiences extremely high levels of congestion throughout the day, particularly at peak commuting times, and the introduction of a use that is likely to generate significant additional vehicle movements at set times, including evenings and weekends, would exacerbate these issues considerably. Of particular concern is the close proximity of a nearby school, where increased traffic, on-street parking, and pedestrian activity would heighten risks to children and families during drop-off and pick-up times. The existing road infrastructure is already under strain, and the proposal does not appear to adequately address the cumulative impact on highway safety, access, and parking capacity. For these reasons, I believe the development would be detrimental to the safety and wellbeing of the local community.
