Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I would like to object to this application.

This road is already extremely busy, particularly during school drop-off and pick-up times. There are frequent issues with parking, vehicles stopping in unsafe places, and general congestion, which creates safety concerns for both pedestrians and children.

The proposed change to a place of worship and community hub, is likely to attract significantly more visitors. Regular weekly gatherings, such as Friday prayers, as well as larger attendances during religious festivals and special events, could lead to a substantial increase in traffic and on-street parking.

In the long term, this could place additional strain on an already congested road network and negatively impact highway safety and residential amenity.

I would ask that careful consideration is given to the traffic implications and whether the surrounding roads can realistically accommodate the increased demand.
