Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: The planned use doesn't seem to align with most of the adjacent local communities which means it'll be a lot more for people living with distance away from the place, who will inevitably need to travel, probably by driving, and therefore increase demand on parking facilities significantly. Frankly, there is no such extra space around there.

This area is already saturated by parking by families with children in the Avenue Primary School and I'm very concerned for local residents' safety and wellbeing already affected by the amount of traffic, inconsiderate parking, crowdedness and noise, having occasionally walked or driven past that small area. When it's the school drop off and pick up times, there are regularly standstill traffic as the road becomes too narrow with the local bus S2 still passing through.

The planned change will mean continuous interruption to an already busy area, 24/7, 365 days of the year, on an even more increased level at various times of the year, which is significant!
