Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: Dear Planning Officer,

I am writing to formally object to the above planning application. I am a resident of [your full address], located in close proximity to the proposed development, and I have concerns regarding the impact this proposal may have on the character and functioning of our residential area.

My objection is based on the following planning grounds:

- 1. Traffic Generation and Highway Safety** The proposal is likely to significantly increase vehicle movements, particularly during peak usage times. The surrounding roads already experience congestion and limited visibility in places, and additional traffic could create safety risks for pedestrians and drivers.
- 2. Parking Pressure** On-street parking in the area is already heavily constrained. The scale and anticipated usage of the development are likely to result in overspill parking on nearby residential streets, leading to inconvenience for residents and potential obstruction of access for emergency vehicles.
- 3. Noise and Disturbance** The increased activity associated with the development, including arrivals and departures of visitors and general use, has the potential to introduce noise levels inconsistent with the quiet residential character of the area, particularly during evenings and weekends.

4. Scale and Impact on Residential Amenity The size and intensity of the proposed use appear out of keeping with the surrounding residential context. This may result in a loss of amenity for neighbouring properties through increased activity, disturbance, and change to the local environment.

5. Cumulative Impact on Local Infrastructure The proposal may place additional pressure on local infrastructure and services without clear mitigation measures, which should be carefully assessed.

In summary, I believe the development, in its current form, would have an adverse impact on highway safety, residential amenity, and the character of the area. I respectfully request that these concerns be given full consideration when determining the application.

Thank you for taking the time to consider my representation.

Yours faithfully

Amir Selim
