Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing to express my support for Planning Application DM2025/01591. As a local resident who has been part of this community for many years, I strongly support the proposal to use this government-owned site as a mosque. In my view, this development will provide significant community benefits, including health and wellbeing programmes, educational activities for children, inclusive facilities, and dedicated space and activities for women, helping to foster social cohesion and support for families in the area. The building is modest in scale and in keeping with the character of the local area, and its use as a mosque represents a low-intensity use compared to many alternative developments that could be permitted on the site. The proposal includes 12 on-site parking spaces plus 2 disabled bays, along with cycle racks to encourage sustainable travel, and it maintains existing greenery, demonstrating thoughtful planning. Importantly, Friday prayers are being staggered specifically to avoid conflict with nearby school pick-up times, and I do not believe the development will cause significant traffic, light, or noise issues. Overall, I consider this to be a well-considered and beneficial proposal for the local community, and I respectfully ask the Council to approve this application.
