Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I'm a father of five living on Cuddington Way, and I'd like to share my support for the new community centre in Belmont.

Having something so close to home would make a real difference for my family. Being within walking distance makes it convenient and practical for us to attend regularly. With children ranging in age from 8 to 24, it's not always easy to find spaces where we can all feel welcome and involved, but I see this centre as somewhere we could take part in things together.

I think it would be a great way to mix with others in the area, learn more about different cultures, and build a stronger sense of togetherness in Belmont. I'd really value the opportunity for my family to meet other local families, build connections, and feel more rooted in the community we live in.

More broadly, a community centre can offer a positive space for people of all backgrounds- somewhere for events, learning and shared experiences. It has the potential to bring different cultures together, encourage understanding, and create stronger bonds between neighbours.

I believe it would be a welcoming addition to our area, and something that would benefit not just my family, but many others too.
