Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing as a resident of Conways Close to express my strong support for the proposed community centre and place of worship.

I understand that the site previously operated as a 24-hour facility, and I welcome the fact that it is now being proposed for managed community use with defined and limited hours. In my view, this represents a more controlled and structured use of the building, which is likely to result in less disruption compared to its former operation.

I also appreciate the modest design of the proposal. The building appears well considered and in keeping with the character of the surrounding residential area. It does not seem overbearing or out of scale and should blend well with the local streetscape.

The programmes being proposed are another strong reason for my support. Youth activities, children's educational support and structured community programmes provide positive outlets for young people and families. These types of facilities are important for building stronger local connections and supporting personal development.

I particularly value the inclusion of a multi-use hall that can be used by all communities. This demonstrates that the centre is intended to be inclusive and accessible, serving a broad cross-section of local residents rather than a single group.

Overall, I believe this proposal represents a positive and responsible reuse of the site and will bring meaningful social and educational benefits to the area. I fully support the application and

hope it receives approval.
