Comment:Re: Planning Application DM2025/01591 - Comment in Support

Dear Sutton Council Planning Team,

I write to formally support Planning Application DM2025/01591 relating to 41 South Drive, Sutton, SM2 7PH. My name is Ajab Khan Khanzada and I am a local resident.

Having reviewed the proposal, I consider it to be appropriately designed and carefully managed. The building is modest in scale and appears sympathetic to the character of the surrounding area. In planning terms, the proposed use also seems less intensive than a number of alternative developments that could reasonably come forward, and is therefore unlikely to create undue disturbance.

I also note the practical measures included to support access and minimise local impact. The provision of 12 on-site parking spaces together with 2 disabled bays, in addition to cycle racks, should encourage orderly arrival and promote sustainable travel. It is equally positive that existing greenery is being retained, which helps preserve the visual setting and local amenity.

The community benefits set out in the application are a further reason for my support. In particular, the proposed health and wellbeing activities, the dedicated space and programmes for women, and the educational provision for children represent meaningful, inclusive facilities for local residents.

Finally, I understand that Friday prayers will be staggered to avoid conflict with school pick-up times, which demonstrates responsible management and consideration for neighbouring uses. On the basis of the information provided, I do not believe the proposal will result in significant adverse effects in relation to traffic, noise, or light.

For the reasons above, I respectfully request that the Council grants approval for Planning Application DM2025/01591.

Yours faithfully,
Ajab Khan Khanzada
