Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing to express my support for the planning application. I am a local resident and I believe this proposal would be a positive, practical addition to the area.

The plans show a modest, well-considered building that appears in keeping with the surrounding neighbourhood. The proposed use also seems low-intensity compared with many alternative developments, and it is clearly aimed at community benefit.

I particularly welcome the focus on inclusive community activities, including health and wellbeing programmes, dedicated space and activities for women, and educational programmes for children. These facilities would provide structured, positive opportunities for local families and help strengthen community connections.

From a planning perspective, it is reassuring that the proposal includes 12 on-site parking spaces plus 2 disabled bays, as well as cycle racks to encourage sustainable travel. I also note that existing greenery is being maintained, helping protect the look and feel of the area.

Finally, I appreciate the commitment to stagger Friday prayers to avoid clashing with local school pick-up times, which should help minimise congestion. Overall, I do not believe the proposal will cause significant traffic, noise, or light impacts.

For these reasons, I respectfully ask the Council to approve planning application DM2025/01591.
