Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: We live 15 minutes walk away from the proposed community centre (which is currently the ambulance centre). We usually prefer to walk to the places of worship, almost five times a day, like many of the local residents. They would prefer to either cycle or walk. We need such places where we can meet up, socialise, and help each other, especially in these times of increased loneliness and mental health issues. It would be great to see the involvement of the rest of the community, be they Muslim or not, to come, sit, chit-chat, and have some coffee. It is a lovely walk, and well connected in terms of public transport as well (for example, the new S2).
