Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I object to this application on the following basis:

1. There would be significantly increased traffic and road safety risks, including over crowding with parking in the neighbouring roads.
2. School safety - the pupils attending nearby Avenue Primary School (and their parents) would be at risk from reduced parking in the area and reduced visibility around so many extra parked cars
3. Noise and disturbance - especially in the evening from voices, car doors, car engines etc.
4. Disturbance to the local community by increased congestion, especially for nearby care home and elderly residents.
5. The proposed structure would look out of character in this neighbourhood and would dwarf nearby properties.
6. It is already difficult to drive during school drop off and pick up times and the proposed use of this building will mean more times when this area will be difficult to navigate. Not to mention increasing car and noise pollution.

From what I can see, there are already 7 Islamic centres/ mosques in the London Borough of Sutton and I am not sure that another one is necessary for the community in this area.
