Commenter Type:

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: As a resident of this area for the past 25 years I strongly support this application.

This would be the closest community hub to me and within walking distance. It would provide a useful space which could be used to strengthen the bonds between neighbors. Social gatherings and small group activities for elderly residents would be included regularly. After the isolating period of Covid, activities that promote mental health, social interaction and well being are so important for the Belmont and Cheam community.

The centre also plans to offer programmes which would be open to all local residents to increase community understanding and bonds. I can see many positive aspects to having a local community centre.
