Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I strongly support this application as I believe having a local community centre would have a positive impact on the wider community.

This is an ideal location, and could provide structured activities for the youth as there are no other local youth centres close by. Coffee mornings, toddler groups, fitness sessions for both men and women, social gatherings for the elderly, informative talks and interactions which all promote well being, would be very beneficial to the area.

As compared to its previous use as an ambulance centre, which had vehicles coming and going at all times, both day and night, this would have a significantly reduced disturbance to neighbours. For many local residents it would be within walking distance or easily accessible via bus.

I hope that this plan is approved as it would strengthen bonds and also promote a better relationship and deeper understanding through community wide sessions which are open to all local residents.
