Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: The planning application says 12 parking spaces available at this new venue, which will not be nearly enough for all the extra traffic that will be brought into the area. As a resident of Avenue Road, I have to contend with cars being parked over my drive associated with the school. The school has grown threefold in the 25+ years I have lived here, and more people than ever are using cars to take children to school rather than walk. In addition, since COVID, school pick up and drop off times have been extended making getting out of the drive more difficult. Traffic flow down Avenue Road and Dorset Road is already extremely heavy and used as a cut through from the main road. I also belong to Sutton Bowls Club and walking to and from there I notice the increase in cars being parked (quite often badly) and this will only increase if planning is allowed for a new place of worship and community hub - this is not the site for this type of venue. Older people and children are already having to negotiate crossing the road through parked cars, it is an accident waiting to happen. I strongly object.
