

# Comments for Planning Application DM2025/01591

## Application Summary

Application Number: DM2025/01591

Address: Ambulance Station Dorset Road Belmont SM2 6JH

Proposal: Change of use from Sui Generis (Ambulance Station) to mixed use Classes F1 (Places of Worship) and F2 (Community Hub) involving the erection of a part one, part two storey front and side extension, increase in height to part of building and provision of cycle and refuse stores.

Case Officer: Polly Davidson

## Customer Details

Name: Mr MANNU BATRRA

Address: FLAT 110 KINDRED HOUSE 25 Scarbrook Road Croydon CR0 1GL

## Comment Details

Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I object to DM2025/01591 because the proposal would cause unacceptable harm to highway safety, parking stress, and residential amenity in a constrained residential area, particularly during school-run and evening peak periods.

This is a school-run environment with high pedestrian movement. Any increase in drop-offs, circulating traffic, and on-street parking will reduce visibility and materially increase risk to children and pedestrians.

The applicant's Transport Statement identifies significant overspill, with a worst-case scenario referring to up to 80 vehicles locally. Only 14 on-site spaces are proposed (with an assumption that 3 may be staff spaces), leaving up to 69 vehicles to park on surrounding residential streets.

This level of overspill would lead to blocked driveways, pavement obstruction, unsafe manoeuvres, and obstruction risks.

Since I regularly visit this area, I have personally experience:

- Heavy parking during school drop-off and pick-up
- Poor visibility at junctions due to parked cars
- Vehicles undertaking three-point turns and reversing in narrow or cul-de-sac roads
- Pavements obstructed by vehicles
- Difficulty for buggies, elderly residents, and wheelchair users

For the reasons above, I respectfully request that Sutton Council refuse application

DM2025/01591 due to unacceptable highway safety, parking, and residential amenity impacts.
