Commenter Type:

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I express my strong support for the proposed development in Belmont.

This community hub will provide a much needed place of worship and other volunteering, charity and educational activities across all cohorts but especially for the youth, women and vulnerable elderly community.

This would be a peaceful and well managed space that promises to strengthen neighborhood ties and promote cohesion.

This centre will be committed to being a responsible, transparent and well managed institution that will work collaboratively with local residents and authorities. I firmly believe the opening of this space will enhance social harmony, support families and contribute positively to the cultural and social fabric of our rich and diverse community.

I would therefore respectfully urge the decision makers to support this development in the spirit of inclusion, fairness and shared community values.
