Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: As a local resident, I am writing to support planning application DM2025/01591. In my view this proposal deserves approval and will explain my reasons below.

The application recognises that women, families, and elderly residents have specific needs that are not currently being met locally. The dedicated provision in this proposal is a thoughtful and practical response to that reality.

The proposed interfaith activities are a particular strength of this application. This facility is designed to bring people together across different backgrounds, not to divide them. The community hub is open to all.

Isolation is one of the biggest public health challenges we face, particularly for elderly residents and new parents. A local community hub with wellbeing programmes and social activities is a direct, practical response to that challenge.

I hope the Council will give this application the beneficial decision it merits. I fully support the grant of planning permission for DM2025/01591.
