Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I wish to register my support for planning application DM2025/01591. This is a sensible, policy-compliant proposal that will make good use of a vacant site and serve the local community.

A community centre with restricted hours versus a 24-hour emergency vehicle depot. The comparison speaks for itself. The proposed use is a clear improvement in amenity terms for the surrounding residential streets. Relatedly, this proposal puts accessible provision within walking distance, with dedicated spaces designed for women and families. Women who do not drive are effectively cut off from community and faith provision when the nearest facilities are miles away.

The claim that this development will create a new parking problem ignores the fact that the previous use had 21 parking spaces and generated regular vehicle movements. The development reduces on-site parking and removes restrictive yellow lines, actually improving the kerbside situation for residents.

There is no temporal overlap between Friday prayer times and the school run at Avenue Primary Academy. This concern, while understandable, is not founded on the actual timings. Prayers are at midday; the school run is morning and mid-afternoon.

I'd also add that the submitted noise report confirms that the building fabric will contain sound effectively. This meets the Local Authority's criteria. Even at the busiest time, with amplified speech during Friday prayers, the noise reaching neighbouring properties is predicted to be below ambient background levels.

I wholeheartedly support this application and ask the Council to grant planning permission. This facility is needed and will be welcomed.
