Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: Dear Planning Officer,

I wish to formally object to the above planning application for the proposed change of use to Class F1 (Place of Worship) and Class F2 (Community Hub).

My objection is based on the following material planning considerations:

Traffic and Highway Safety:

The site is located on an already heavily congested road, particularly during school drop-off and pick-up times. The proposed use is likely to significantly increase vehicular traffic and pedestrian movement, creating a serious highway safety risk, particularly for children attending the nearby school.

Inadequate Parking Provision:

The application does not demonstrate sufficient on-site parking. The surrounding residential streets are already under parking stress, and overspill parking will likely obstruct driveways and emergency vehicle access.

Noise and Disturbance:

The proposed use may generate significant noise from gatherings, amplified sound, and increased activity during evenings and weekends, adversely affecting neighbouring residential properties and the nearby school.

Impact on Residential Amenity:

The scale and intensity of use is not compatible with the predominantly residential character of the area and would materially harm the quiet enjoyment of neighbouring homes.

For these reasons, I respectfully request that the application be refused.

Thanks.
