Comment Details

Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: Increased congestion: More vehicles mean longer travel times and bottlenecks at intersections.

Safety risks: Higher traffic volumes raise the likelihood of accidents, particularly for pedestrians and cyclists.

Strain on infrastructure: Existing road networks may not be designed for added capacity.

Emergency access concerns: Congested streets can delay emergency services.

Position emphasis: If road capacity and intersection performance are already stretched, additional traffic can significantly reduce local livability.
