Commenter Type:

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I write in support of the above application and wish to make the following observations for the committee's consideration.

The proposal addresses a demonstrable local need. The Muslim community in this borough has grown considerably, and existing worship facilities are overcrowded and insufficient. Approval would provide a sustainable, locally accessible solution - reducing long-distance travel and improving access for elderly residents and families with young children.

With regard to the objections submitted, I would respectfully note that the former ambulance use involved 24-hour operations with large emergency vehicles - a level of traffic and noise that significantly exceeds what a community facility would generate. The claim that this proposal represents an intensification of harmful activity is therefore not well-founded when compared to the previous lawful use of the site.

The proposed development is consistent with planning policy supporting community facilities and the efficient re-use of previously developed land. I urge the committee to grant permission.
