Comment Reasons:

Comment: Here is a shorter and slightly reworded version:

I am writing to express my strong support for the proposal to convert the former ambulance station into a Masjid and Community Centre.

There is a clear and growing need for adequate worship and community space for Muslim residents in the borough. At present, many families, elderly residents, and young people must travel significant distances to access suitable facilities. This development would provide an important local solution.

Concerns about traffic and noise should be viewed in context. The site previously operated as a 24-hour ambulance station with heavy vehicle movements at all hours. A community and worship centre would generate far less activity, at predictable times, representing an overall improvement for the area.

Transforming a vacant building into a positive community hub - offering prayer, education, and support services - would bring clear social benefits. I respectfully urge the planning committee to approve the application.
