Name: Mr Iain Carnegie

Address: 67 Holland Avenue Cheam Sutton SM2 6HT

Comment Details

Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: As a resident of Holland Avenue, living in particularly close proximity to the site of the proposed building, I am opposed to these plans for the following reasons:

1. The road infrastructure of Dorset Road, Holland Avenue, Avenue Road and other adjoining roads was never designed to accommodate the volume of traffic and parking caused by the significant expansion of The Avenue Primary Academy and the daily occurrence of illegal parking on red lines, yellow lines and zig zags has led to serious traffic jams, congestion and verbal confrontations on a daily basis. On some occasions, these roads have become gridlocked due to no places for cars to pull in. Adding a place of worship with completely inadequate parking facilities in the middle of this is therefore inappropriate.
2. The proposal is in direct opposition to the council's Sutton School Streets Scheme, which aims to address the rising incidence of asthma and related illnesses in children and others due to increased traffic volumes around school sites.
3. The proposed building will be in use from 7am - 11pm. This will cause significant disturbance and noise nuisance with no respite for local residents.
4. Exhaust fumes will emit directly into the gardens of our neighbouring properties, given the citing of the few parking spaces.

For these reasons and others, this site is totally inappropriate for the proposals detailed in the application and will have a significantly negative impact on the local residents and also further

compromise the health and safety of local school children if implemented. I urge you to reject.
