Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing to the Council to express my support for the planning application at the former ambulance station on Dorset Road (DM2025/01591). I think this is a good proposal that merits approval.

A community centre with restricted hours versus a 24-hour emergency vehicle depot. The comparison speaks for itself. The proposed use is a clear improvement in amenity terms for the surrounding residential streets.

On this point, I have checked the timings and there is no conflict between Friday prayers and the school run. The prayer changeover is around 12:30 to 12:55, while school drop-off and pick-up are at 08:30 and 15:00 respectively. These do not coincide.

Additionally, I hope the Council will focus on what matters in planning terms: whether this is the right use for this site, whether it is well-designed, and whether its impacts are acceptable. The application documents demonstrate convincingly that the answer to all three is yes.

The planning statement provides clear demographic evidence that the local Muslim community has outgrown the available facilities. But this is not just about faith provision. The need is real and well-documented. The community hub will serve all residents with educational, social, and wellbeing activities.

The mix of uses in this application is what makes it so valuable. It is not a single-use building. The community hub element will host activities for all residents, making it a shared neighbourhood

resource rather than a facility for one group.

I hope the Council will give this application the positive decision it merits. I fully support the grant of planning permission for DM2025/01591.
