Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing as a local resident to support this application.

Our area genuinely benefits from accessible community spaces and this is an excellent opportunity to bring a disused building back into active, positive use. Community hubs strengthen neighbourhoods, reduce isolation, and provide vital gathering spaces for residents of all backgrounds.

The concerns raised about traffic and parking are disproportionate. The Avenue already experiences its heaviest congestion during school drop-off and pick-up at Avenue Primary Academy - far exceeding what occasional community gatherings would generate. Additionally, Belmont church already serves a regular congregation nearby without causing the predicted disruption to parking or road safety. The evidence simply does not support the level of concern being expressed.

The noise and disturbance objections similarly appear speculative. Community halls and places of worship operate successfully throughout residential areas across the borough without the problems described.

Repurposing a former ambulance station into a thriving community hub is exactly the kind of sensitive, purposeful development that should be encouraged. I urge the council to assess this application on its planning merits and approve it.
