Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment:I am in favour of this proposal as it will create a safe and supportive environment for all community members and specially young teenagers. Having a dedicated space where they can gather, learn new skills, and interact with positive role models of older residents is incredibly important. This development will help guide our youth towards healthier choices while also giving older residents opportunities to engage, volunteer, and share their experience. It is an investment in the longterm wellbeing of our community.
