Comment Reasons:

Comment: Dear Ms Davidson,

I am writing to express my support for Planning Application DM2025/01591 concerning the Ambulance Station on Dorset Road, Belmont SM2 6JH.

I have lived locally for more than 12 years and am well acquainted with the nature and operation of the surrounding area. Having considered the submitted proposals, I am supportive of the change of use from Sui Generis (Ambulance Station) to a mixed-use Class F1 (Place of Worship) and Class F2 (Community Hub), along with the associated extensions.

The scheme would provide clear community benefits aligned with planning policy objectives. The introduction of a community hub offering health and wellbeing initiatives, inclusive facilities, educational programmes for children, and dedicated spaces and activities for women would make a meaningful contribution to local social infrastructure and strengthen community cohesion.

In terms of built form, the proposed part one, part two-storey extensions and modest height increase appear appropriate and proportionate. The overall scale and design reflect the character of the surrounding residential area and do not amount to overdevelopment of the site.

In my view, the proposed use would operate at a relatively low intensity when compared with other forms of development that could lawfully be pursued on the site. The inclusion of 12 on-site parking spaces, including 2 disabled bays, together with cycle storage, indicates that transport and accessibility matters have been carefully considered. The retention of existing greenery also

ensures that the site will remain visually compatible with its surroundings.

It is further acknowledged that Friday prayers are intended to be staggered to avoid overlap with nearby school pick-up times, demonstrating a considerate and proactive approach to managing traffic. On this basis, I do not believe the proposal would result in significant or unacceptable impacts in terms of traffic, noise, or lighting.

For these reasons, I kindly request that the Council approves Planning Application DM2025/01591.

Yours sincerely,
Talal Osmani
