Comment Reasons:

Comment: Dear Ms Davidson,

I write in support of Planning Application DM2025/01591 in respect of the Ambulance Station, Dorset Road, Belmont SM2 6JH.

I have been a local resident for approximately 12 years and I am familiar with the character and functioning of the surrounding area. Having reviewed the submitted proposals, I support the change of use from Sui Generis (Ambulance Station) to a mixed-use Class F1 (Place of Worship) and Class F2 (Community Hub), together with the associated extensions.

The proposal would deliver clear and policy-aligned community benefits. The provision of a community hub enabling health and wellbeing programmes, inclusive facilities, educational activities for children, and a positive contribution to local social infrastructure and community cohesion.

The use proposed is, in my view, relatively low intensity compared to alternative forms of development that could lawfully come forward on this site. The provision of 12 on-site parking spaces, including 2 disabled bays, together with cycle racks, demonstrates that transport and accessibility considerations have been properly addressed. The retention of greenery further ensures the site remains visually appropriate within its setting.

It is also noted that Friday prayers will be staggered to avoid conflict with local school pick-up times, reflecting a proactive and responsible approach to traffic management.

On this basis, I do not consider that the proposal would give rise to significant or unacceptable traffic, noise, or light impacts.

For all of the the above reasons, I sincerely request that the Council grants approval for Planning Application DM2025/01591.

Yours sincerely,
Talha Osmani
