Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I object to DM2025/01591 on the grounds that it would cause unacceptable harm to highway safety, parking stress, and residential amenity in an already constrained residential area.

I live at 34 Holland Avenue and experience regular parking congestion, particularly during school drop-off and pick-up times. Vehicles frequently park close to junctions, reducing visibility, and manoeuvre with difficulty due to limited road width. Pavements are often obstructed, creating safety issues for pedestrians.

The applicant's Transport Statement identifies a worst-case scenario of up to 80 vehicles locally, with only 14 on-site spaces, leaving up to 69 vehicles overspill onto surrounding streets. The local road network does not have capacity to accommodate this level of additional parking without blocked driveways, unsafe manoeuvres, and reduced highway safety.

The Fire Strategy confirms a maximum building capacity of 297 persons, and documents indicate up to 250 attendees may depart around 11pm following larger events. Late-evening dispersal of this scale would cause disturbance from vehicle movements, idling engines, and noise within a quiet residential setting.

Given the constrained layout of Holland Avenue and surrounding cul-de-sacs, the proposal would result in severe cumulative impacts on safety and amenity.

I respectfully request that Sutton Council refuse planning application DM2025/01591
