Comment Reasons:

Comment: I support this application because the change is intended to benefit everyone in the community and not any specific group.

I believe it will help to bring people together and provide services that are particularly helpful to the senior sector of the community.

The change in use will also improve the view from the street with the removal of the large, industrial looking folding doors.

I also believe the intended use will not lead to any significant noise disturbance to the neighbours - something the previous use as an ambulance centre could not have guaranteed.
