Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: The objection is on the basis of increased traffic disruption and the complete lack of parking provision for this development. With the Avenue Road school foot fall/car drop off tripling over the last 10 years or so the disruption to our area is already way beyond what we could have imagined. This Worship/Community hub will add yet another layer of traffic, disruption and parking issues. We witness on a regular basis traffic jams that can last between 10 and 30 minutes in Avenue Road during the morning and afternoon from the school drop off and pick up times. The traffic at the crossroads at the junction of Dorset Road and Avenue Road during these periods is dangerous with many people crossing roads on foot. I strongly object to further regular disruption to this area.
