Address: 6 Sevenoaks Close Sutton SM2 6NL

Comment Details

Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I object the building of Mosque in the area of SM2 mainly due to the below reasons:

1) Traffic, parking and road safety:

The site is immediately adjacent to a primary school. Additional visitors and onstreet parking associated with the Community Hub would reduce kerbside availability for school dropoff/pickup and could create dangerous congestion at peak times.

There is an increased risk to pupils and parents from additional vehicle movements on narrow residential roads.

To add there is already a community Hub available at St. Johns Church which serves a place for gathering and worship.

2) Impact on vulnerable residents / residential amenity:

A care home is located directly opposite the proposed site. The frequency of vehicle movements, congregations and potential amplified public announcements could materially increase noise and disturbance for residents, adversely affecting their wellbeing.

3) Local provision and need:

There are already multiple places of worship serving the Sutton area. The application does not demonstrate a clear, evidenced need for an additional facility at this location nor explain why other sites with better parking and lower residential impact were not considered.

4) Character and amenity of the neighbourhood:

The proposal would increase traffic on inner roads and change the quiet residential character of

the area. already we are facing increased parking issues due to school drop off and pick ups ,a new Place of Worship/Community Hub would amplify the traffic thereby causing disturbance to the residents.

For these reasons I request that the application be refused.
