Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I write to you as an 85 year old resident of Holland Avenue in full support for the planning application DM2025/01591.

I have reviewed the proposal and feel that one of the greatest benefits is that this centre is easily accessible for myself, within walking distance of our home. As we grow older, there is a great need for facilities that can be safely reached on foot, where there are activities and events for us. This allows us to remain independent, active and also to be connected to our neighbourhood and residents.

I feel very encouraged to hear of the proposed programmes and activities available for older residents. We need places to meet others, socialise, listen to talks and wellbeing sessions, but also to spend time outside of the home in a welcoming environment. Social isolation is a real problem for many older people in the community and having a local space dedicated to getting the community together, to engage, and have activities for all ages, would make a meaningful difference.

In my view, this centre would be a positive and very welcome addition to the area. It would support wellbeing, strengthen community spirit and promote unity.

I respectfully ask the Council to approve this planning application, DM2025/01591.
