Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: i have just moved into the area recently (4 years) and when i was informed about the proposal about a community centre, me and the family are so thrilled as it would make life so much easier to meet people, we are an aging family and it would great for me and wife and kids to meet new people, especially as many people close to us have passed away. this would help our mental health, in meeting new people and establishing a community for our age range. also physically helping us.

there so many community centres closing down, its nice to hear a community centre being opened.

i have looked at the proposals and i am delighted to see the thoughtful process of keeping to the area norms and greenery, i would like to say i came from wimbledon and the centre proposed programmes for Friday is a huge benefit and would not affect the local area (schools) and would keep the area traffic free, i hope this project gets the application approved and the approval it needs to be accepted

if you reuire any further info please let me
