Commenter Type:

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am a local resident and strongly support this application. I walk to the local church for Friday prayers so it would be a welcome improvement to have a community hub dedicated to our faith activities instead of us having to use the church for it.

Additionally, it would be great to have this new centre as it will be inviting non-Muslims for general well-being activities too.

There are some objections about traffic increasing, but most of the community walk, and most already attend regular prayers at the church nearby and there are no traffic issues.

The site currently looks really bad and is not in use for the benefit of the community: this conversion will turn it into a positive source of community well-being.
