Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing as a local resident to express my support for planning application.

I welcome the fact that the previous busy operational facility on the site is now being replaced by a modest, community-focused development. The proposed centre will be significantly quieter and much more in keeping with the surrounding residential area.

I also appreciate that the proposal includes additional parking provision and sensible management arrangements. This demonstrates consideration for local residents and will help minimise any impact on surrounding roads.

In terms of design, I find the development to be in line with the aesthetics of the area. The scale and layout appear proportionate and well thought out, ensuring that the building integrates comfortably within the existing streetscape.

Overall, I believe this proposal represents a positive change for the neighbourhood, providing a well-managed and community-focused facility that is sympathetic to its surroundings. I respectfully ask the Council to approve planning application.
