Comment:Re: Planning Application DM2025/01591

Dear Sir/Madam,

I am writing as a local resident in Sutton to express my support for Planning Application DM2025/01591. I have been living in Sutton since 2020 and at my current Sutton address since 2022. As a member of the local community, I care about ensuring that development in the area is appropriate, beneficial, and well managed.

I support this proposal because it provides valuable community-focused facilities while remaining modest in scale and in keeping with the character of the surrounding area. The design and size of the building do not appear excessive and would sit comfortably within the existing streetscape.

The proposal offers clear community benefits, including health and wellbeing programmes, inclusive facilities, and wider community use. In particular, the provision of dedicated activities and space for women is a positive and important aspect, ensuring accessibility and inclusivity. The inclusion of educational programmes for children will also provide structured learning opportunities in a safe local environment, supporting families within the community.

The proposed use appears to be low intensity compared to other forms of development that could potentially take place on the site. I note that 12 on-site parking spaces are proposed, including 2 disabled bays, which demonstrates proper consideration for accessibility and parking demand. The provision of cycle racks also promotes sustainable travel choices. It is reassuring that existing

greenery is being maintained, helping preserve the visual character of the area.

I also understand that Friday prayers are intended to be staggered specifically to avoid conflict with nearby school pick-up times. This shows a thoughtful and proactive approach to managing potential traffic concerns. Overall, I do not believe the proposal will result in significant traffic, light, or noise impacts on neighbouring properties.

For these reasons, I respectfully ask the Council to approve Planning Application DM2025/01591.

Yours faithfully,
Abdul Baari
