Comment Reasons:

Comment: Dear Sir/Madam,

As a local resident, I wish to express my strong support for Planning Application DM2025/01591. This proposal represents a meaningful response to a real and growing community need within our part of Sutton.

What stands out most about this application is its strong local focus. Many of the people who will benefit from this project-myself included-live just a short walk away. By establishing a truly walkable community and spiritual centre, the proposal not only fosters neighbourhood connection but also supports the Council's climate and transport objectives by reducing reliance on cars.

I am particularly encouraged by the plans for a Youth Community Group at this site. It offers young residents a muchneeded safe and welcoming environment for:

- Career and Skills Development: Hosting local career events, apprenticeships, and mentoring sessions that open doors for young people.
- Wellbeing and Social Connection: Creating a supportive space for community belonging and mental health, especially for young women and underrepresented groups.
- Interfaith Collaboration: Making the facility available to multiple faiths ensures it serves as a unifying shared resource-bringing people together rather than separating them.

From a planning and design perspective, the proposal is both considerate and well thought out:

- Traffic and Parking: The modest parking provision is entirely appropriate because most users will walk. The planned staggering of Friday prayer times demonstrates careful coordination with local patterns, such as school pickups.

- Scale and Design Harmony: The building's size and design respect the surrounding area, preserving greenery and complementing the existing residential character.

Overall, this is a lowimpact, highbenefit project that strengthens community ties while promoting sustainability and inclusion. I wholeheartedly support its approval and believe it will serve Sutton residents for generations to come.

Yours faithfully,
Faizaan Ahmed
