Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: This proposal poses a serious health & safety risk to all. Avenue Primary school is a stones throw from the proposed site, the extra road traffic and parking will create a huge risk to all pupils at drop off and pick up times. The additional parking will reduce visibility and create unsafe walking areas for children and parents, a disaster waiting to happen.

Where will all the addition vehicles visiting the site park, the area is already heavily congested/saturated with parking, this will only add to the misery of the local residents.

Has anyone really thought about the noise pollution should this go ahead? Cars trying to park, cars circling looking for a parking place that does not exist, doors opening and closing and voices late at night?

The proposed site will be completely out of character/keeping with its domestic scale and of neighbouring properties.

A nearby care home, elderly neighbours and the vulnerable will struggle and be hit the hardest with the increased noise, late night disturbance and the obstruction.

The proposal would bring gatherings and events in an already constrained residential road which is absolute madness and should not proceed.
