Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing to express my strong support for the proposed Community Centre and Mosque as per planning application DM2025/01591.

I am a resident of Mulgrave road for 6 years, I work as Doctor in Kings College Hospital and a mother of two young daughters. One of my daughter attended Avenue primary school.

This area lack community space, nearest one is at the Town centre. This project represents an invaluable opportunity to offer community hub in our area and is excellent use of disused site.

The mosque and community centre together will create a warm, welcoming space for people of all backgrounds, a place that brings neighbours together.

As a doctor, I have a deep appreciation for safe, inclusive, and supportive spaces that contribute to the health and well being of families and the wider community.

Every day, in my work as a doctor, I meet people whose challenges could be eased, not by medicine alone but by connection, belonging, and access to supportive communal space especially for the elderly.

This centre will provide immense benefits to the youth, providing educational , social and safe space outside school hours

The mosque component of the development is equally valuable. It is not only a place of worship

but also a centre for charity, community service, open days, and outreach programmes. I have seen other mosques offering warm spaces for the residents.

Parking and noise objections are speculative, roads around the Avenue Primary School gets congested at school start and finish time, however community centre timing can be easily managed and will not add to the congestion,

As a doctor, I know the positive impact such facilities can have on physical and mental health. As a mother, I see the immense value this centre will bring to my daughters and other children in the community. And as a resident, I believe this development will strengthen our neighbourhood in meaningful and lasting ways.

As a doctor, a mother, and a neighbour, I urge the council to approve this application.
