Comment Reasons:

Comment: Dorset Road and surrounding area is a quiet residential area and we would like to keep it that way . Putting a large place of worship (mosque) in the middle of this quiet area would severely affect the tranquility of the area due to the increased number of people coming to the area and also the increased traffic.

In addition I have major concerns about the following

1. Increased traffic and road safety risks - as a local resident I already have trouble coming out of my drive during the school hours as there are so many cars parked everywhere and reduced visibility on the road. Adding additional traffic would only make this problem worse. There is very limited parking on Dorset Road so all the cars will be parked on Holland Avenue / York Road / Avenue Road causing us, the residents, difficulty driving and parking .

In addition there are many school children (from the Avenue School) on these roads so any additional traffic may also compromise their safety .

2. Serious noise and Late night disturbance - We live in a quiet residential area and do not want noise from people driving / going to their cars / slamming car doors / chatting all day and especially as they leave the centre in the evenings - possibly going on past 11pm at night.

3. Care homes in the area - there are care homes on Dorset Road - the residents would be seriously affected by the increased traffic, noise and footfall in the area. They are vulnerable people and do deserve some peace.

4. I can see that in the concerns from other people they mention Friday prayer times as the main concern for additional traffic / people coming here but in reality I do not believe that it will only be restricted to Fridays - there will be continuous people coming on all days including weekends and all major islamic festival days.
